Upper Core	ISYS90032 Emerging Technologies and Issues	Offered semester 1 & 2
Upper Core	ISYS90043 Enterprise Applications & Architectures	Offered semester 1 & 2
Elective	<i>choose ONE</i> – see over page	
Elective	<i>choose ONE</i> – see over page	

Students showing past expertise in subjects may be able to replace them with electives. For instance, if you have already studied Project and Change Management then ISYS90050 will be replaced by an elective in your course. This should already have been assessed as part of the application process. If you haven't been given exemptions to subjects that you think you should have been, send an email (including your degree transcripts **AND STUDENT ID to Sean) stating exactly what you require.**

¹ If you have already worked in industry, especially as a consultant you may be able to get an exemption from this subject, email the course coordinator to discuss.
