Course Planning – Professional Specialisation

This document outlines the preferred course plan for the MIS Professional Specialisation. This specialization is normally undertaken across 4 semesters (2 years) on a full time basis or 8 semesters (4 years) on a part time basis. Part time students should do no more than 2 subjects per semester. On application, students may apply for credit exemptions based on their background as specified in the MC-IS handbook entry https://handbook.unimelb.edu.au/2018/courses/mc-is/entry-participation-requirements. All credit exemptions must be processed by the end of the second week of your 1st semester.

There are 16 subjects of study:

- **Foundation Core:** 4 compulsory foundation subjects
- **Lower Core:** 4 compulsory subjects
- **Upper Core:** 4 compulsory subjects
- **Electives:** 4 subjects of your choice

Your course should progress through the foundation core subjects before you undertake the lower core subjects over the 1st year of your study. In your 2nd year you should undertake 2 upper core subjects and 2 elective subjects per semester. If you are thinking about undertaking exchange, then you should complete your 4 upper core subjects in a single semester leaving 4 elective subjects that can be used in the exchange program.

Students showing past expertise in foundation and lower core subjects may be able to replace them with ISYS / INFO9xxxx electives. For instance,
- If you have already studied database then INFO90002 will be replaced by an ISYS / INFO9xxxx elective in your course.
- If you have already worked in industry, especially as a consultant you may be able to get an exemption from ISYS90045, email the course coordinator to discuss.

All exemptions are assessed in the application process. If you haven’t been given exemptions to subjects that you think you should have been, send an email (including your degree transcripts AND STUDENT ID) to MIS-HELP@unimelb.edu.au, stating exactly what you require.
DISCIPLINE ELECTIVES  50 points

Students would normally select four subjects from the list of electives. Students may also study electives from elsewhere in the University and if interested they should discuss this with the MIS coordinator.

Industry Based Learning
- An application process must be completed for these subjects, see each subject’s handbook entry.
- Not available to students undertaking the Research Specialisation, or subjects from the Research Studies elective stream.
- Students may only enrol in one of these subjects.
INFO90010 Technology Innovation Project (not 2019)
ENGR90033 Industry Based Learning

Technical Computing
Students can take any subject from the MIT (COMP9xxxx/SWEN9xxxx) offerings as long as they have the prerequisite knowledge. See https://handbook.unimelb.edu.au/courses/MC-IT

People Management
IBUS90004 Cross Cultural management & Teamwork
MGMT90011 Managing Stakeholders

Research Studies
- This elective stream is only available to students who have received 50 points or more of Advanced Standing. Other students should consider the MIS research specialisation.
- MIS Course Coordinator approval is required for each subject. Students will normally be required to achieve at least a 75% average with no subject receiving less than 65%. Students will also normally achieve a mark of 80% in Research Methods to be able to continue in the research studies elective stream. Entry is dependent on the availability of a suitable supervisor for the chosen area of research.
- Not available to students undertaking any subject from the Industry Based Learning elective stream.
